MARC LEMEZMA ~ BIOGRAPHY

Marc Lemezma is a professional magical performer, presenter, inventor and author. He has thrilled audiences all over the World and in June 2003 he was honoured to be chosen to perform in front of Her Majesty the Queen at Buckingham palace during the celebrations to mark the 50th anniversary of the Coronation.

With an engaging and humorous style, Marc specialises in close-up magic which is popular at dinners or banquets and is also extremely effective in increasing traffic at trade stands or exhibitions. Another of his specialities is "Mind Magic" a mixture of psychology, trickery and a "special something" that leaves his audiences doubting their own senses!

Amazing Magic is just a small part of what Marc can offer. With a string of Radio and TV credits to his name Marc is equally at home on the microphone or in front of the camera.

Prize-Winning public speaker Marc has a strong reputation as a Top-Drawer Corporate Entertainer. Being so much more than 'just a performer' Marc will work closely with his clients to ensure that his show is tailored to their needs. If required, he can create new magical effects, write background music and lyrics especially for the occasion and even produce poems, songs or speeches for other guests or the hosts to perform themselves.

An accomplished composer and lyricist, Marc almost certainly inherited his many talents from his father and grandfather who were both professional entertainers. His brothers and sisters are all professional musicians (brother Mike Stock is one third of the Stock, Aitken and Waterman hit factory) and Marc has worked with the Northern Sinfonia, He also wrote the music and lyrics for a musical "For The Love of Dana" which was performed in the summer of 2002 at the Charles Cryer Theatre in Surrey.

International Author Marc Lemezma has had six books published since 2003. His books have also been translated into Chinese, Polish, Bulgarian and Russian to name but a few. Marc's first book for publishers New Holland "Mind Magic" set the scene for a string of follow-ups with his seven due in early 2009!
